The Clerk reported that information about the funds had been published in the Newsletter and on the web site and there had been 57 responses. The vast majority of these had been from parents, carers or relatives of young people stating they wanted CIL money used to develop facilities for youth football.

(e) Streetlight up-grades (20/77(g))

Garry Johnson (E.ON) had indicated that, subject to Scottish Power agreeing, the work in Millbrook and Bridgeway would be undertaken by early December although the new National 'lock down' would probably delay the start of the project. Residents affected by the change had been sent a letter giving details of the planned work and two responses had been received requesting a slight re-location of the light close to their property.

(f) Playing field - path repair (20/77(h))

Members were thanked for supporting the approval of a quotation from Shropshire Council's Outdoor Partnership for the repair of the path. The work would be undertaken at the earliest opportunity.

(g) Play Area Inspections and Repairs:

(a) Inspections:

The Clerk reported that he had made contact with the Shropshire Council Officer responsible for Play Area Inspections and the outstanding problems had been resolved. The Chairman and Vice Chairman had agreed that the Council should continue to contract Shropshire Council to carry out the regular and RoSPA Inspections.

Councillor P. Sharp had agreed to monitor the equipment on the Fitness Area.

(b) Repairs:

Members had been made aware that the latest RoSPA reports had indicated a range of safety issues on both sites and needed urgent attention to bring them back to the required standard. Quotations for the work had been obtained and forwarded to them and after due consideration the following resolutions were approved:

Erdington Play Area:

1. Acceptance of quotation from Ray Parry Playgrounds for a range of repairs; the removal of a condemned unit and replacing it with a new pedestal slide.
2. The need to replace the wooden fencing surrounding the play area. An acceptable quotation had been received from JST Services but it was decided to explore the possibility of erecting a metal fence before a decision was confirmed.

Playing Field Play Area:

1. Acceptance of a quotation from Ray Parry Playgrounds for a range of repairs and the supply of grass matting for use under both sets of swings.
2. Acceptance of a quotation from JST Services to lift the old matting from under the swings and remove it from site and then carry out the replacement of the new matting. To take account of the weather conditions the project would be delayed until next spring.

In total the cost of all the work on both sites would be in the region of £20,000.00 and a decision would be made at the next Council meeting whether this should be part funded from CIL (Neighbourhood) Funds.

(g) Allotment Access (20/82(biii))

Members considered a detailed report prepared by the Clerk and proposals put forward by Councillor J. Vernon. It was noted that the lease on the land had expired several years ago and it was felt that there was a need to discuss this with a representative of Connexus before any decision was made.

Clerk to clarify if they were prepared to offer a new lease and if so on what terms and for how long and if agreed whether the Council would have to pay the legal fees involved.

20/92 Correspondence.

Members considered the correspondence which had been received by the Clerk since the last meeting and noted that where necessary, appropriate actions had been taken and responses made.

Particular note was made of the following:

This money, together with the £10,000 already promised, would be transferred to the Project Committee when a quotation had been accepted for constructing the pitches and the work was underway.
